

UnixWare 7.1.4

Maintenance Pack 3

Release Notes -- Addendum

May 2006

This document describes the changes made to the UnixWare 7.1.4 Revised Maintenance Pack 3 CD in May 2006:

Network Infrastructure and Configuration Subsystem (nics) Package:

The nics package on the CD has been updated to fix the following problem:

1. **Cannot idbuild a new kernel after installing uw714mp3 --**
After installing MP3, "idbuild -B" core dumps. This problem has been resolved.
